Vented sidelights

- Door stile edge construction allows for stocking a single unit to service fixed and vented sidelight applications
- Therma-Tru® is the only fiberglass door manufacturer today to offer vented sidelights with decorative glass options
- Vented units are continuous systems with one hinged door and two hinged sidelights (single) or two hinged doors and hinged sidelights (French)
 1. Available in Fiber-Classic®, Oak Collection™, and Smooth-Star®
 - NOTE: Fiber-Classic® features only lip-lite construction, Smooth-Star features lip-lite and flush-glazed constructions

- Features wide patio mullion for structural strength when doors and vented units are open
- Door stile edges provide additional strength and anchors for hinges and lock gears for use in vented applications for 12"- and 14"-widths
- Sizing – Inswing design only

Single door with sidelights:

- 2'6" - 3'0" door opening widths
- 12" & 14" sidelight widths
- 6'6", 6'8" & 8'0" heights

French door with sidelights:

- 4'8" - 6'0" door opening widths
- 12" & 14" sidelight widths
- 6'6", 6'8" & 8'0" heights
